Course Description and Goals

The course is designed to introduce students to the diversity of wildlife species and ecosystems in Florida with an emphasis on amphibians, reptiles, mammals, birds and terrestrial ecosystems. This course will provide students with a basic understanding of the natural history, ecology and behavior of (primarily) terrestrial amphibians, reptiles, birds and mammals of Florida. Such a basic background is prerequisite to be able to design field studies that focus on conservation concerns. In this regard, it is important to know where these vertebrates live, their life-history strategies and what management techniques can be employed to address conservation problems. Most importantly, the course is intended to increase student awareness and appreciation of the many natural systems of Florida.

Course Objectives:

Following this course, a student should be able to define and explain the terminology and concepts associated with:

- Identification and characterization of major terrestrial ecosystems of Florida
- Basic natural history, ecology and behavior of key amphibians, reptiles, birds and mammals within each major terrestrial Florida ecosystem

Students should also be able to describe the application of ecological principles to conservation and management of wildlife species and ecosystems characterized in this class.

Instructor: Dr. Debbie Miller
Office: 4917 Building: 4900
Phone: 850-983-7128
Cell phone: 850-240-2135
Email: dlimi@ufl.edu

Office hours: Tuesday 2-4 and Wednesday 2-4 (when not out of town); Otherwise, when the door is open you are welcome. I will be available most of the time but students should call to determine my presence on campus or to make an appointment. When I’m not available in the office cell phone calls are welcomed. Don’t hesitate to call. Leave a message if the phone is turned off and I will get back to you as soon as possible.
Program Assistant: Connie Spencer  
Office: Front Desk in Bldg. 4900  
Phone: 850-983-7125  
Email: conniebspencer@ufl.edu

Teaching Assistant: Ashlynn Smith  
Office: 4803 Building: 4800  
Phone: 850-983-7141  
Cell phone: 850-612-2480  
Email: ashlynnsmith@ufl.edu

Textbook: NONE REQUIRED BUT SEVERAL SUGGESTED

Highly Suggested:  
Priceless Florida: Natural Ecosystem and Native Species  
Authors: Ellie Whitney, D. Bruce Means and Anne Rudloe  
Publisher: Pineapple Press Inc.  
ISBN: 978-1-56164-308-0

Suggested:  
Ecosystems of Florida  
Edited: Ronald L. Myers and John J. Ewel  
Publisher: The University of Central Florida Press  

Suggested:  
Florida – The Ecotraveller’s Wildlife Guide  
Authors: Fiona Sunquist, Mel Sunquist and Les Beletshky  
Publisher: Academic Press [http://www.academicpress.com]  
ISBN: 0-12-676985-0

Suggested:  
Chapter on Wildlife in The Longleaf Pine Ecosystem  
Editors: Shibu Jose, Eric J. Jokela, Deborah L. Miller  
Publisher: Springer

Class Lecture/Lab Schedule:  
Building 4800; Room 4814  
Lab 5:00-6:00pm every Thursday evening;  
Class generally 6:00-8:00pm every Thursday evening;  
Three REQUIRED all day field trips.

Saturday labs will be used for more extensive field visits where you will learn about wildlife and wildlife conservation from professionals in the field, practice field techniques and observations. A van will leave from campus in the a.m. to drive to these areas. Three REQUIRED all day field trips.

Credit Hours:  
This is a 3 credit “C” course: 2 credits for lecture = 2 hrs of contact time per week and 1 credit for lab = 2 to 3 hours of additional lab time per week. Labs will
be conducted in a 1 to 1.5 hr period as part of the regular 3 hour class period, and there will be 3 required Saturday all day field trips to complete the lab component. In addition, you should expect to put in ~ 6 hours of additional time outside of class (at a minimum) to complete assignments and prepare for class.

**Course Material:** Course syllabus and course outlines (PowerPoint) will be provided on-line through e-learning in Canvas [http://elearning.ufl.edu/](http://elearning.ufl.edu/).

**Evaluation:** To be able to access how well we achieve our goals and objectives, several evaluation methods will be used. Because students vary in the evaluation tools that best demonstrate their knowledge and understanding, my assessment will be based on test scores (test will include both multiple choice, short answer and long answer questions), participation in discussions in class and field experiences and written synthesis of field exercises.

**Points:**

| Lecture exams: | 2 @ 100 pts each | 200 pts |
| Final exam: | 1 @ 100 pts (not comprehensive) | 100 pts |
| Class Participation: | attendance & participation | 30 pts |
| Field Trips: | 3 @ 25 points each for attendance and participation | 75 pts |

You are required to make three (3) fieldtrips; 25 points will be subtracted for each field trip missed; Exceptions are allowed for medical absences, but a make-up paper will be required (see instructor). It is recommended that you bring the following items to facilitate lab activities: calculator, clip board, rain gear (if necessary), sturdy shoes (sneakers will be fine unless otherwise noted), snacks and water, something to take pictures with (cellphone will work), and you might want to record what is being said or take extensive notes.

**Field Trip Write Ups:** 50 points for each field trip 150 pts

Instructions for each lab write-up will be provided at the beginning of each lab.

**Total Points:** 555 pts

Late work will be penalized 5 % per day.

Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with University policies which can be found at: [https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx](https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx)

With an appropriate excuse (e.g. illness, etc.) as determined by the instructor, make-up work must be completed no late than 1 week after the original due date to prevent the accrual of late work penalties. Exceptions due to extenuating circumstances (e.g. extended illness, etc.) will be evaluated by the instructor.

Make-up exams will be given only when circumstances beyond a student’s control (e.g. illness, etc.) are reported and, when possible, documented (e.g. doctor’s note). Notify the instructor before the exam is missed or as soon as possible. A make-up exam should be taken or arrangements made to take the exam no later than 1 week after the initial exam is given.
Class Notes:

Available on e-learning - CANVAS
Laboratory slides and Power Point slides for wildlife identification also available on e-learning CANVAS; Print outs will not be provided. You must print your own set of lecture notes and Power Point slides.

Evaluation: To be able to access how well we achieve our goals and objectives, several evaluation methods will be used. Because students vary in the evaluation tools that best demonstrate their knowledge and understanding my assessment will be based on test scores (test will include both multiple choice, short answer and long answer questions), participation in discussions and field experiences, written synthesis of field exercises.

Fieldtrips are REQUIRED. If a circumstance beyond your control occurs you must let me know immediately (before the trip is preferred; call my cell phone). The optional assignment (generally an 8-10 page paper on a subject that I feel best substitutes for the field trip) can be used as a makeup for a missed fieldtrip only with my permission (contingent on legitimate excuse for missing required fieldtrip). Write-ups from fieldtrips will be due 1.5 weeks after the trip (the second class period) unless otherwise indicated.

Grades and Grade Points
For information on current UF policies for assigning grade points, see https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx

Grade Assignment: Letter grade will be determined based on the following grade scale:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>93-100%</td>
</tr>
<tr>
<td>A-</td>
<td>90-92%</td>
</tr>
<tr>
<td>B+</td>
<td>87-89%</td>
</tr>
<tr>
<td>B</td>
<td>83-86%</td>
</tr>
<tr>

General Notices to Students

Campus Resources
Students experiencing crises or personal problems that interfere with their general well-being are encouraged to utilize the university’s counseling resources. The Counseling & Wellness Center provides confidential counseling services at no cost for currently enrolled students. Resources are available on campus for students having personal problems or lacking clear career or academic goals, which interfere with their academic performance.

- **University Counseling & Wellness Center**, 3190 Radio Road, 352-392-1575, [www.counseling.ufl.edu/cwc/](http://www.counseling.ufl.edu/cwc/)
  - Counseling Services
  - Groups and Workshops
  - Outreach and Consultation
  - Self-Help Library
  - Wellness Coaching

- **E-learning Technical Support**, 352-392-4357 (select option 2) or e-mail to [Learning-support@ufl.edu](mailto:Learning-support@ufl.edu) Website: [https://lss.at.ufl.edu/help.shtml](https://lss.at.ufl.edu/help.shtml)

In spite of our distance from Gainesville, students at UF Milton do have access to support services. If you need accommodation for any problem, feel free to call the appropriate office in Gainesville, or contact me directly.

Accommodations for Students with Disabilities
Students with disabilities requesting accommodations should first register with the Disability Resource Center (352-392-8565, [www.dso.ufl.edu/drc/](http://www.dso.ufl.edu/drc/)) by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.
UF Academic Honesty
As a result of completing the registration form at the University of Florida, every student has signed the following statement: "I understand the University of Florida expects its students to be honest in all their academic work. I agree to adhere to this commitment to academic honesty and understand that my failure to comply with this commitment may result in disciplinary action up to and including expulsion from the University."

UF Computer Software Usage
All faculty, staff and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate.

Online Course Evaluation Process
Student assessment of instruction is an important part of efforts to improve teaching and learning. At the end of the semester, students are expected to provide feedback on the quality of instruction in this course using a standard set of university and college criteria. These evaluations are conducted online at https://evaluations.ufl.edu. Evaluations are typically open for students to complete during the last two or three weeks of the semester; students will be notified of the specific times when they are open. Summary results of these assessments are available to students at https://evaluations.ufl.edu/results.
