Spring 2016
FNR4623 – Integrated Natural Resource Management

Instructor: Drs. Kimberly Bohn and Debbie Miller
Office: Bldg 4900
Office hours: Open door policy, or by appointment
Office Phone: 850 983-7129 (Bohn) or 983-7128 (Miller)
Cell Phone: 850-377-2854 (Bohn) or 850-240-2135 (Miller)
Email: kkbohn@ufl.edu or dlm@ufl.edu

Course Description:
Students will use integrated problem solving by applying biological, quantitative, economic, and administrative principles in solving complex natural resource management problems, leading to a comprehensive management plan for an actual property.

Course Objectives:
To synthesize and apply natural resource management principles learned in their curriculum.

To gain experience practicing professional ethics and behavior when interacting with landowners and natural resource professionals.

Enhance student confidence in their management skills and develop their understanding of what it means to be a professional resource manager.

Develop skills and strategies for working effectively as a team.

Course Format:
Class Period: Tues. 5pm…and some flexible day/times through semester to accommodate students and/or guest speakers

Class time will include discussion related to progress towards the development of a comprehensive management plan with occasional guest speakers or review lectures.

LAB: Several through semester, Dates/Times will be determined by students. In some cases, students will need to coordinate with the landowner to get clearance or access to the property.

This is a ‘problem-solving’ class in which students are formed into teams, are given a real problem to solve, and make a written presentation of the solutions which will be presented to the client. Learning will be accomplished through the student experience of solving a real natural resource problem for a client. Think of this as your first consulting job. Some brief introductory materials will provide some guidance to the problem-solving process, but students in the course are encouraged and expected to work with little supervision.

Required Text:
None; Supplemental Reading will be handed out by the instructors as needed
On-line Resources:
An e-learning site for this course is available through CANVAS. Here you will have an opportunity to share documents and discussions with your classmates. General announcements from the instructors to students will also be posted here.

Attendance:
Attendance is the most constructive method to develop the skills related to Integrated Resource Planning & Management. Attendance at formal class meetings is mandatory in the sense of attendance at a meeting called by your supervisor is mandatory in a job situation. A participation score based attendance and contribution to the development of the final product will be given.

Grading Policy:
Grades will be based on the content and presentation of the following materials:
1. 1st drafts of each plan section (individual grades) 75 pts
2. 2nd drafts of each plan section (individual grades) 75 pts
3. Instructor evaluation of Final management plan 200 pts
4. Instructor evaluation of Final presentation 100 pts
5. Client response to plan and team performance 75 pts
6. Individual peer assessments of other team members 25 pts
7. Participation/Attendance score 50 pts

Because you are submitting a management to a real set of stakeholders, we expect nothing short of excellence. In the real world, the results of your efforts would be clear- failure to produce anything short of a top quality document would result in a withholding of payment. In that sense, you will not receive a final grade until the document and presentation are of a suitable quality to provide to the landowner/stakeholders. Failure to produce a professional document by the end of the semester will result in an incomplete grade until satisfactory completion of the assignments is met. You have plenty of opportunity to receive feedback and revise drafts of your work throughout the semester, and we have little doubt that a final quality document can be achieved within that timeframe.

Letter grades will be assigned as follows: A (93-100), A- (90-92), B+ (86-89), B (83-85), B- (80-82), C+ (76-79), C (73-75), C- (70-72), D+ (66-69), D (63-65), D- (60-62), E (<60)

A complete explanation of the UF Grading policies can be found at: http://www.registrar.ufl.edu/catalog/policies/regulationgrades.html

Late Policy
It is critical that your first drafts be submitted in a timely manner. Assignments turned in on paper at the start of the class period or electronically by the start of class are considered on time. After that, late assignments will lose value at the rate of 10% for the first late day and 5% for each subsequent late day (weekend days count too!).

Attendance Policy
All excused absences from class or lab must have prior approval from the instructors. Also, classmates must be notified prior to absence.
Professionalism:
Students are expected to act in a professional manner while participating in this class. Instructors reserve the right to reduce student grades or withdraw the student from a class for unprofessional behavior or disorderly conduct. Disorderly conduct is any behavior which disrupts the regular or normal functions of the University community, including behavior which breaches the peace or violates the rights of others.

Professors will not tolerate groups that do not work together and complete their assignments. If you have difficulties or problems, do not wait to seek advice and assistance. If the group cannot perform its assigned duties, the likelihood of completing the management plan will not be good. This integrated management plan is a detailed and complicated project, but one that is designed to help the student prepare for real world assignments. The plan is a real assignment and beneficial to the landowner when done properly. Work well, work together and enjoy the project!

Academic Honesty:
The University of Florida requires all members of its community to be honest in all endeavors. Cheating, plagiarism, and other acts diminish the process of learning. When students enroll at UF they commit themselves to honesty and integrity. Your instructor fully expects you to adhere to the academic honesty guidelines you signed when you were admitted to UF.

As a student at the University of Florida, you have committed yourself to uphold the Honor Code, which includes the following pledge: “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.” You are expected to exhibit behavior consistent with this commitment to the UF academic community, and on all work submitted for credit at the University of Florida, the following pledge is either required or implied: "On my honor, I have neither given nor received unauthorized aid in doing this assignment." Furthermore, as part of your obligation to uphold the Honor Code, you should report any condition that facilitates academic misconduct to appropriate personnel. It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the University of Florida will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary action. For more information regarding the Student Honor Code, please see: http://www.dso.ufl.edu/sccr/process/student-conduct-honor-code.

Services for Students with Disabilities
The Disability Resource Center coordinates the needed accommodations of students with disabilities. This includes registering disabilities, recommending academic accommodations within the classroom, accessing special adaptive computer equipment, providing interpretation services and mediating faculty-student disability related issues. Students requesting classroom accommodation must first register with the Dean of Students Office. The Dean of Students Office will provide documentation to the student who must then provide this documentation to the Instructor when requesting accommodation
0001 Reid Hall, 352-392-8565, www.dso.ufl.edu/drc/

Campus Helping Resources
Students experiencing crises or personal problems that interfere with their general well-being are encouraged to utilize the university’s counseling resources. The Counseling&Wellness Center provides confidential counseling services at no cost for currently enrolled students. Resources are
available on campus for students having personal problems or lacking clear career or academic goals, which interfere with their academic performance.

- Career Resource Center, First Floor JWRU, 392-1601, www.crc.ufl.edu

Online Course Evaluation Process
Student assessment of instruction is an important part of efforts to improve teaching and learning. At the end of the semester, students are expected to provide feedback on the quality of instruction in this course using a standard set of university and college criteria. These evaluations are conducted online at https://evaluations.ufl.edu. Evaluations are typically open for students to complete during the last two or three weeks of the semester; students will be notified of the specific times when they are open. You will have an opportunity during one of the last class periods to fill these out. Summary results of these assessments are available to students at https://evaluations.ufl.edu/results.

TENTATIVE Schedule of Activities and Assignments
(Individual assignments and due dates will be determined once specific objectives for the property and an outline of the management plan have been developed).
