

2026

UF|IFAS  
UNIVERSITY of FLORIDA

# Corn & Soybean Field Day

Hosted by UF/IFAS Extension and  
West Florida Research and Education Center

**Friday, July 24, 2026**

**8 a.m. to 1 p.m.**

**4253 Experiment Road  
Hwy 182, Jay, FL 32565**

The purpose of this meeting is to give local producers updates on corn and soybean varieties, pests, weeds, and diseases that effect the two crops, as well as pesticide rules and economics update to educate on proper management strategies. We will also be applying for Florida Pesticide CEU's and educating on fertilizer management and ways of improving yields and management decisions to promote best management practices and sustainability. **Lunch will be provided!**

To register call Robin Vickers at  
850-983-7134 or [rvickers@ufl.edu](mailto:rvickers@ufl.edu)

CEU's Available
